### Summary

---

I'm a Law graduate from Pancasila University who decided to embark on a new and exciting career path. After spending a few years in the law-related field, I realized that I was seeking a fresh challenge that aligned with my true passion. Proficient in web development languages including Javascript, TypeScript, HTML, CSS, coupled with adept utilization of technologies like React.Js, Tailwind, Node.Js, Next.Js, and databases such as MySQL and PostgreSQL.

### Experience

---

#### McInvest – Crowdfunding Platform | August 2023 – Present

McInvest is a web app designed to provide users with a platform to invest in various projects. Users can view a list of available investment projects, monitor their investments through a dashboard, and access reports on their investment history. The development process includes:

- Designing a database based on project specification
- Transforming designs into fully responsive front-end code with Next.js and Tailwind
- Creating a REST API with PostgreSQL database and Prisma ORM

Check out the web app: <https://mcinvest.vercel.app/>

#### Galaxy Store – Multi Warehouse E-commerce | June 2023 – July 2023

Galaxy Store is a multi-warehouse e-commerce platform designed specifically for selling Samsung devices. Users can browse and purchase various Samsung products. Administrators have the ability to view, accept, or decline orders from buyers. Additionally, Galaxy Store provides comprehensive reporting features. The development process includes:

- Galaxy Store features include authentication, user management, order management, homepage, admin dashboard, sales reporting, and stock history.

- Translate mobile-first design into fully responsive frontend using React.js, Tailwind, and Chakra UI
- Design database structure according to project specifications
- Create REST API using NodeJS, Express.js and MySQL
- Collaborate with other members using Jira for issue and project
